

DRY TECHNOLOGY

Our DRY evaporation technology keep you dry & cool for up to 3 days, simply using tap water.

FILL WITH 500ML WATER

DISTRIBUTE THE WATER EVENLY AND SQUEEZE OUT ANY EXCESS WATER

ENJOY IMMEDIATE COOLING

The **INUTEQ-DRY** evaporative cooling vest is a comfortable, full-fashioned lightweight vest. No refrigeration or additional gels or chemicals are required. The vest will reduce heat stress and fatigue, allowing you to perform better.

Due to our patented system, the vest will not become wet or soggy, making it suitable for wear underneath clothing.

This product performs best in low to medium-humidity. The level of airflow determines the cooling effect.
