

Product information: mechanical risks

uvex phynomic WET

Description

The new uvex phynomic series characterizes perfection in 3 dimensions: perfect fit, optimum function and skin protection. The uvex pure standard offers a perfect health and product protection. The uvex phynomic WET is the slightly more robust option in the new uvex phynomic series. The anthracite-coloured aqua-polymer foam coating offers even more protection against moisture and is a superb choice for general assembly work.

Characteristics

- breathable
